CAREER OBJECTIVE

Enthusiastic and dedicated Computer Science fresh graduate seeking to launch my career in the IT field. Eager to apply academic knowledge to real-world challenges, with a strong interest in systems support, software development, and network administration. Quick to adapt, collaborative, and motivated to contribute to innovative projects while continuously expanding my technical skills.

PROFESSIONAL EXPERIENCE

Moovby

October 2024 - December 2024

Software Engineer Intern

- Developed responsive and user-friendly front-end interfaces using HTML, CSS, and JavaScript, based on approved UI/UX designs from the management team.
- Implemented Single Sign-On (SSO) functionality to enable seamless user authentication across services.
- Refactored and updated legacy front-end code previously written by former developers to improve performance and maintainability.
- Used Git for version control and collaboration within a team-based development workflow.
- Collaborated closely with designers and back-end developers to ensure accurate implementation of visual and functional requirements.

Talentlabs

September 2024 - December 2024

K-Youth Development Programme(KYDP) Trainee

- Completed a structured Foundation in Software Engineering programme focused on both front-end and back-end development.
- Acquired hands-on experience with HTML, CSS, and JavaScript for building responsive and interactive web applications.
- Gained foundational knowledge in AWS for cloud-based deployment and services.
- Utilized GitHub for version control and collaborative software development workflows.
- Participated in real-world projects that enhanced problem-solving, teamwork, and practical software engineering skills.

EDUCATIONAL BACKGROUND

Bachelor of Computer Science (Hons.) | Big Data

Oct 2021 - March 2025

Universiti Teknologi MARA | CGPA - 3.33

Subject Related: Artificial Intelligence Algorithm, Data Structure, Enterprise Programming, Business Data Analytics, Data Representation

Foundation in Science

June 2020 - July 2021

Pusat Asasi UiTM | CGPA - 3.72

CERTIFICATIONS

Foundation in Software Engineering (2q0YpMvnTB-n-65ibUZWnw)

Talentlabs

D3.js Data Visualizations Fundamentals (UC-167dacdb-7c16-4bc2-8588-fa79b18d665c)

Udemy

PROJECTS

FYP: Malaysia's GDP Visualization using Circle Packing Technique

- Developed an interactive web app to visualize Malaysia's GDP using Circle Packing Technique with D3.js. Used JSON for data input, MongoDB for storage
- Built a responsive UI with HTML, CSS, and JavaScript for smooth sector-wise data exploration.

Personal Portfolio Site

- Designed and developed a personal portfolio website to showcase projects, technical skills, and professional experience in a visually appealing and responsive layout.
- Implemented custom styling and interactive components using HTML, CSS, and JavaScript to enhance user experience and performance.

Fake eCommerce Website

- Built a web application using PHP and Laravel, simulating a functional online store with user data stored in MySQL.
- Integrated product data from a public API and designed a responsive UI using HTML, CSS, and Bootstrap.

SKILLS

Programming Language

C++, Java, Python, SQL, PHP

Web Development

HTML, CSS, Bootstrap, Javascript, D3.js, Highcharts, Laravel

Software

VS Code, Weka, Tableau, RapidMiner, Power BI, Postman API, MongoDB Compass, Node.js

Operating System

Windows, Linux

Language

English(Fluent), Malay(Native)

EXTRACURRICULAR ACTIVITIES

PL-300T00 - Microsoft Power BI Data Analyst

2024

Trainocate Sdn Bhd

- Completed training on data analytics and visualization using Microsoft Power BI.
- Gained practical skills in connecting and transforming data, building interactive dashboards, and creating business reports.

Green City Ipad AR Challenge : Shaping Sustainable Urban Cities

2023

Uda Holdings Berhad | Silver Award

- Participated in a design challenge to create sustainable urban city models using Augmented Reality (AR).
- Designed eco-friendly city features with Shapr3D on iPad, applying principles of sustainability and urban planning.

Understanding Blockchain Ecosystem With Internet Computer ICP,

2023

SynergyLabs MY ICP.HUB | Course Participation

- Learned the fundamentals of Blockchain and Web 3.0 technologies.
